Windy
SPIRIT OF SCANDINAVIA

History and legacy

WINDY was established in 1966 by Hugo Vold. His father was a fisherman, and his family had many anxious moments awaiting his return as storms raged in the Skagerrak. All his father's boats were called 'Vindy', and he brought every one of them safely back to port. Vold shared his father's love of, and deep respect for, the sea.

Following his university education he became a boat builder. He wanted his vessels to be known for their seaworthiness and high quality, and he called his company 'Windy' in honour of his father's sturdy fishing vessels. At a time when Scandinavian producers ruled the European market, revolutionising boating and showing millions how to have fun on the water, Vold hired the best designers, sought out the finest boat builders and craftsmen and not only created a world-beating brand, but succeeded in turning the Windy name into a marque of quality. 55 years on, Windy Boats is proud to live according to Vold's legacy, and to build production and custom boats which are acknowledged throughout the world as second to none.

Spirit of Scandinavia - recognized worldwide

When WINDY was established in 1966, the philosophy of the company was to build and deliver the "best built boats in the world". Ambitious yes and since then we have delivered over 12 000 of our Sports Series boats to discriminating boat enthusiasts all over the world. The name WINDY has become synonymous with this philosophy.

Never losing our focus on quality and attention to detail has given us the status of "niche builder" amongst admirers in our industry setting a bench mark of style and performance. When we were contracted to develop, build and deliver the WINDY Dubois SR52 Blackbird to one of the world's largest Sail Boats, we quickly realized how perfect our skills and state of mind matched the demands of Super Yacht Owners.

Today now we have a complete line of SR Series boats stretching from SR26 up to our new Flagship the SLR/SR 60. Our range can be seen as Chase Boats and Tenders to some of the finest and highest profile Super Yachts that sail the Oceans of the world.

During our journey we have also delivered many fully Custom tenders both Open and Limousine always working with the world's greatest designers and craftsmen. Our main production facility in Västervik on the East Coast of Sweden is one of the most efficient and competitive in Europe and where our HQ houses our Engineering and Management Team.

In the coming years now we will continue our development with exciting new projects and maintain our position at the forefront of innovation and technology on the water. Thank you for taking the time to read about our achievements and future goals. We are very proud to be able to put the WINDY name on all our products and hope you will be as proud as we are!

Yours sincerely,
Trevor Fenlon

THE WINDY FLAGSHIP

THE WINDY FLAGSHIP

Windy's philosophy has always been to design and build boats that set a new benchmark of style and performance. Working only with the world's greatest designers and craftsmen, drawing on their passion and skill, Windy has been able to build a name and a product that is envied by many. The commission of the Windy SR52 Blackbird provided the first opportunity for Windy to partner with designers and naval architects external to the company. The SR52 Blackbird opened up a new world for Windy, introducing the brand to the superyacht sector as the builder of the world's finest chaseboat, and Malcolm McKeon was intrinsic to the design of that model. We are incredibly excited to be working with him again.

WINDY SLR/SR 60 is a powerful 60ft chaseboat with a strong personality and clear dual purpose. It is the first boat to bring together Norwegian powerboat builder Windy with Malcolm McKeon Yacht Design. With a range of 850 nautical miles at 25 knots, the Windy SLR/SR 60 has been designed to be the ultimate superyacht chaseboat for long distance excursions. However, it will also serve as a very nimble sports boat for diving and fishing, as well as support shoreside exploration. This contemporary and elegant design is fitted with a large swim platform aft of the luxurious guest area and bar, making it a very attractive vessel for socialising and enjoying relaxing times on the water.

SLR/SR60

SECOND TO NONE

The first vessel has been commissioned by an experienced superyacht owner and has been designed to meet their stringent requirements. The SLR/SR 60 features detailed design accents that mirror those of her superyacht mothership. Following delivery of this first SLR/SR 60, Windy Scandinavia AB is looking forward to the design going into production at the Windy yard in Sweden, making it the largest Windy available and establishing the 60-footer as the company's flagship. As you would expect of a high-performance chaseboat from Windy, the SLR/SR 60 will be able to traverse unprotected and open passages of water with ease. The full-height windscreen provides protection at high speed for those in the forward-facing seats and an increased fuel capacity, compared to other boats of her size, equips this luxury tender with an exceptionally long range of 850 nautical miles at 25 knots. Exhilarating to drive, this incredibly responsive vessel offers impressive acceleration and handling at speed.

WINDY SLR/SR60

SPECIFICATIONS	• Length over all	18,18 m
	• Beam	4,53 m
	• Draft	1,25 m
	• Approx. weight	16 000 kg
	• Fuel capacity	4 250 ltr

MALCOLM MCKEON

"We are delighted to be working with Windy on this high-profile project. I have known Windy's Executive Chairman Knut Heiberg-Andersen for many years, and this collaborative opportunity is very special to me. Windy is a strong international brand and Malcolm McKeon Yacht Design are proud to be associated with them."
